Mark,

We reside at 106 Pulaski Street, in Yorktown. I went to obtain a permit for a shed that my husband and I want to purchase at Home Depot. This shed will measure 12x16 and will be placed in back let hand side of our property. I filled out the appropriate documents and left copies of what was needed for approval.

I was informed by telephone that same day that we would need to write a letter to your attention requesting approval due to zoning regulations.

Please be advised that this shed is not going to be built on the property. It will be placed on cement blocks. Attached are the copies for your review regarding the size and structure of the shed and where it will be placed. We are giving it 5Feet clearance from the back. I believe that is the appropriate clearance, if it is different, please let us know.

If you have any questions, kindly call me at 757-887-5010

We look forward to your respond.

Thank You
